Facts And Figures On Didsbury Gas Franchise

On Monday, Sept. 8, ratepayers in Didsbury will be asked to vote on whether or not a gas franchise should be granted for the supplying of natural gas locally. It is difficult to conceive why anyone should vote against such a forward step in the community, especially when the facts and figures are taken into consideration. For the information of those who are not too familiar with the proposed plans we outline below some of the pertinent points.

According to plans submitted by the Canadian Western Natural Gas Company, the whole of the Town of Didsbury will be served by natural gas. The cost of digging the ditches, supplying and laying the pipe up to the property line will be borne by the Company. From the property line into the building all expenses are the responsibility of the owner. The Town of Didsbury will have no debt to pay, nor will the ratepayers have any frontage tax charged against his property.

At Red Deer the charge for gas is \$2.50 for the first 4,000 feet, and the balance at 35c per thousand. At Calgary the charge is 32c per thousand. An average home uses about 180,000 cubic feet per year. The price at Didsbury will not be known until construction of the line is finished; but it is thought it would be around 45c to 50c per thousand, which would be the same as buying coal around \$10.00 per ton.

A letter forwarded by the Gas Company states that the vote of the proprietary electors should be held now, regardless of the fact that gas is not available at the present time. So on September 8 a poll will be held in the Town of Didsbury from 7 a.m. to 7 p.m., to obtain the ratepayers' approval for the Town to enter into an agreement with the Canadian Western Natural Gas Company. Two-thirds majority is necessary in order for the By-law to pass.

TWO BRIDES-ELECT HONORED AT DOUBLE SHOWER

About 50 ladies gathered in the basement of Knox United Church Friday evening when the two W.A.s of the church and other friends tendered a double shower for two brides-elect of this month, Miss Kay Whyte-Smith and Miss Louise Batesman. After two contests, one of which the two honored guests won, the gifts were opened and passed around for inspection.

Kay and Louise each thanked the ladies for the gifts and kindness, and invited them to visit them in their future homes. After singing "For They Are Jolly Good Fellows" a lovely lunch was served.

Home For Aged Discussed at Meeting

About thirty interested citizens attended a meeting Friday evening at Hughie Roberts' store to discuss a proposed home for the aged in Didsbury. Mr. Roberts called the meeting to order and Mr. M. Weber was appointed chairman, with G. E. McDonald as secretary.

Mr. Weber gave an outline of the project as he had found facts pertaining to the situation from the government down to the prospective inmate. The meeting gave a hearty vote of appreciation for this service.

After considerable discussion the meeting passed a resolution to attempt to establish a home in Didsbury and appointed a committee to investigate further. The committee named will consist of M. Weber, chairman; W. Reist, representing the council; E. C. Peiper, A. Traub; and a fifth member to be chosen by the club.

The committee is open to suggestions from anyone who has had experience along the above line.

Richard B. Ladd Interred at Bergen

Rev. Willard Swaim, assisted by Rev. E. G. Archer of Didsbury, conducted funeral services for Richard Bruce Ladd in the Bergen United Methodist Church. Mr. Ladd, 72, of Didsbury, died Sunday July 26 in Orls following a lengthy illness.

Mr. Solveig Clarke sang "God's Love," one of Mr. Ladd's favorite hymns.

Mr. Ladd was born in Waterloo, Wisconsin on June 1, 1887. He homesteaded in the Bergen district in the late twenties and several years later married Ruth Rolston. To this union were born four sons, William, Robert, Dennis and Ian.

Had the little church at Bergen been several times its size it would hardly have accommodated those who paid to the deceased their last respects.

Funeral Home was in charge of arrangements and interment was in the Bergen cemetery.

Mr. Ladd was a member of the Lutheran church and a life member of the Bergen cemetery.

Tongues of orange flame and clouds of billowing black smoke shot over 500 feet into the air recently when two oil tankers, "Martinez" and "Calf," caught fire while they were tied up at an oil company's docks. In an attempt to prevent the flames from spreading and engulfing the entire dock area, one vessel pulled out into the middle of the stream. Damage to the pier and the two tankers has been estimated at \$5,000,000.

To Hold Hospital Vote Later In Year

At a special meeting of the Didsbury Municipal Hospital Board held Saturday evening it was decided to postpone the second vote on the money by-law until later in the year. The by-law, if passed, would provide for extensive additions and alterations to present hospital facilities.

It was felt that if the vote were taken on August 30, the date announced earlier by the board, that it would hit in the middle of harvesting operations and might suffer the same fate as the July vote when bad weather and poor roads caused a poor turn-out at the polls.

Feeling is that the board made a wise decision in putting off the vote at this time as the crops are ripening faster than was expected and most farmers are almost certain to be busy at this time.

No new date was set for another vote on the \$28,000 money by-law but should all go well it will probably be taken some time in October.

BY-LAW 663 SYNOPSIS

Synopsis of By-Law No. 663 and Agreement between the Town of Didsbury and the Canadian Western Natural Gas Company with regard to Franchise for the supplying of gas.

WHEREAS the Town of Didsbury and the Canadian Western Natural Gas Company propose to enter into an Agreement for the supply of Gas to the Town:

THEREFORE be it agreed that:

1. The Company will provide the Town of Didsbury with a supply of natural gas, and the Town grants to the Canadian Western Natural Gas Co. a special franchise to supply natural gas to the inhabitants of the Town of Didsbury for a term of twenty years from date of installation.

2. The pipe lines shall be located in the lanes rather than in the streets of the Town when reasonably practicable. The Company agrees that it will do as little damage as possible in the execution of the work, and will restore the lanes and streets as nearly as possible to their former state and maintain same for a period of two years.

3. The property line shall be the place of delivery of all natural gas supplied to the customers in the Town. The Company shall install a meter suitably located on the consumer's premises, said meter to be owned and supplied without charge by the Company. The expense and risk of utilizing and using such natural gas after delivery at said property line shall be borne by the customer.

4. If the By-Law passes by the necessary two-thirds majority the Town and Company shall make application to the Legislature of the Province of Alberta for an Act of the said Legislature validating the said franchise agreement.

5. The Company shall charge for natural gas within the Town such prices as may be agreed upon by the Town and Company. Failing such agreement, the prices shall be such as may be fixed from time to time by the Board of Public Utility Commissioners of Alberta.

6. At the expiration of twenty years the contract may be renewed for a period not exceeding ten years, and so on from time to time with such alterations, if any, as may be agreed upon by the parties and approved by the Board of Public Utility Commissioners of Alberta.

7. It is agreed that the plant, equipment and pipe lines of the Company in the Town shall be subject to assessment and taxation upon the same basis as other property in the Town. Provided that for a period of five years from the date of installation the total taxes payable in any year shall not exceed an amount equal to one percent of the gross receipts of the Company derived from the sale of natural gas within the Town. Thereafter the total taxes payable by the Company to the Town in any year shall not exceed an amount equal to 5% of the gross receipts of the Company derived from the sale of natural gas within the Town.

I hereby certify that the above is a true synopsis of a proposed By-law which has been introduced and which will be finally passed by Council within four weeks from the assent of proprietary electors.

F. L. EVANS,
Returning Officer

NOTES FROM D.A.

HUGH McPHAIL

It looks as though it is going to be difficult for the farmers to dispose of their grain this year. Those with matting barley will be interested in the following.

The Canadian Wheat Board has advised that producers will be allowed to deliver matting pot or pearling barley in excess of the established quota, providing a sample has been accepted by the maltster or shipper and a premium is to be paid. A special form available at local elevators is to be used in making application to the Wheat Board for this privilege of delivering over the quota.

I wonder if this might be the trouble with some of the plants in the district.

Zinc is essential to the growth and development of both plants and animals. In deficiency, the older leaves of the plant are first affected. Mottling of leaves involves the areas between veins and eventually the veins themselves. The leaves thicken and twig internodes are dwarfed. In fruit trees the characteristic symptoms are variously described as "rosette" or "whorl" "little leaf" and "die back."

Production of 27 pounds of nickel calls for the mining and processing of 2,000 pounds of ore. In South Africa is the world's largest nickel producer.

CHRISTIAN SCIENCE

The great fact that man's opportunities are infinite will be set forth in Christian Science churches under the title "Soul: The Lesson-Sermon will incorporate this Biblical declaration from Lamentations: "The Lord is good unto them that wait for Him, to the soul that seeketh Him." (3: 25). And also this statement from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Sooner or later we shall learn that the fetters of man's infinite capacity are forged by the illusion that he lives in body instead of in Soul, in matter instead of in Spirit." (p. 223)

Agricultural
SERVICE
BOARD
NOTES

W.K. Snyder,
Field Supervisor

Quack Grass: Quack grass can be
eradicated by a proper program of
cultivation and cropping. It is not
too late to start at the present time
on your infested land, although it
would have been better to have
started a month ago.

The main control is to maintain
a black summerfallow. That is to
say, the land should be cultivated
by plowing or one-waying over to
give a black surface to the land.
Thereafter cultivation should be of
such frequency and nature that no
leaves are allowed to form through-
out the season. Then next spring
you could one-way as soon as any
growth has shown. Later on, before
leaves have formed, the land can be
disced or otherwise cultivated, har-
rowed, paked and sown to barley.
As this seeding is likely to be
around the middle of June an early
harley should be used.

GRAIN COMMISSION SETS
GRAIN CHARGES

The Board of Grain Commission-
ers has issued an order establish-
ing maximum tariffs of elevator
charges for the crop year commenc-
ing August 1, 1952, at the same
level as prevailed in the past crop
year.

The board also ordered that the
allowance for shrinkage for tough
grades of wheat, oats, barley and
rye be reduced from three-quarter
percent to one-half percent, and the
allowance for damp grades be reduced
from 1 percent to one-half percent.
Early last week various grain
handling interests made presenta-
tions to the board with regard to
handling and storage charges and
also shrinkage.

The Alberta and Saskatchewan
Pools suggested that the handling
of wheat, oats, barley and rye be
increased by one-eighth of a cent a
bushel. The Pools also suggested
that the carrying charges for grain
be reduced from 1 cent for every 30
days to 1 cent for every 35 days.
The Manitoba Pool proposed 1 cent
for every 40 days.

The United Grain Growers pro-
posed that there should be no in-
crease in handling charges, but that
storage charges be maintained at
1 percent for 30 days.

The North-West Line Elevators
proposed that handling charges
be increased, higher charges be
put into effect for cleaning grain
and the storage charges be main-
tained.

Isaac Pitblado, counsel for the
North-West Line Elevators Associa-
tion, presented drafts showing that
while present elevator tariffs are at
about the same level as in 1939,
operation costs had gone up sub-
stantially. Wages and salaries have
risen 252 percent and repair costs
by 575 percent. Many country ele-
vators need remodelling or rebuild-
ing. Mr. Pitblado said that cost of
a 35,000 bushel elevator has risen
from \$15,600 in 1939 to \$46,500 to-
day.

21 SHIPS CARRY GRAIN
FROM CHURCHILL IN 1951

During the two and one-half
month navigation season on Hud-
son Bay last year the port of Church-
ill handled 21 ships carrying
7,788,000 bushels of grain. Sir Clem-
ent Jones, chairman of the common-
wealth shipping committee, be-
lieves that with proper allocation of
tonnage, 26 ships carrying 10,000-
600 bushels could have been hand-
led. Last year's season extended
from July 26 to October 10.

WEDDINGS

DRYDEN-HUGOT

Massed summer flowers and ferns
formed a beautiful floral setting for
the wedding July 26th of Ailela
Byrne, daughter of Mr. and Mrs. J.
E. Hugot of Olds, and Mr. Angus
Dryden, only son of Mrs. Dryden
and the late Mr. James Dryden of
Vancouver.

Dr. W. S. Taylor, Union College,
University of B.C., was the officiat-
ing clergyman.

The wedding and reception were
held at the home of Mrs. Helen
Mauince, Acadia Rd., U.B.C. district,
a friend of the bride.

Given in marriage by her father,
the bride wore a gown of yellow
nylon net and lace, ballerina length,
coronet of white roses in her hair
and matching yellow accessories.
She carried a sheaf of white roses
and baby orchids. Her only attend-
ant, Miss Tilly Beeter, wore a pale
green nylon net and lace gown,
ballerina length. Her coronet and
bouquet were yellow daisies.

Mr. Wilfred McKnight attended
the groom and proposed the toast
to the bride.

Receiving with the wedding party
were the hostess, Mrs. Mauince, the
bride's mother, Mrs. Hugot, and the
groom's mother, Mrs. Dryden.

The bride's table was centred with
a three-tiered wedding cake flanked
by tall white tapers and vases of
summer flowers. Presiding over this
were Mrs. A. B. Lockhart of Wind-
sor, Ont., sister of the groom and
Mrs. Grace Lockhart of Vancouver.
Mrs. W. McKnight, Mrs. Dan Mc-
Gill, Miss Nora Smith and Miss
Jill Mauince served the guests.

Following the reception the bride
and groom left for a honeymoon trip
through the Okanagan and western
states, the former changing to a tan
suit with touches of brown and
capitol swinging from the shoulders.
A small brown velvet hat and
brown accessories completed her
costume.

On their return Mr. and Mrs. Dry-
den will reside in Vancouver.

CROP CONDITIONS
ABOVE NORMAL

For the third week in succession
the better than average rains which
have occurred across the prairies
through the Okanagan and western
all moisture condition. This overall
condition (weighted for wheat acre-
age) now stands at 111 percent of
normal, compared with 109 percent
last week and 93 percent at this
time a year ago.

Alberta now stands at 115 percent
of normal, compared with 112 per-
cent last week.

The rains which have fallen dur-
ing this growing season from April
1st to this date have been 90 per-
cent of normal for Alberta, 92 per-
cent for Saskatchewan and 77 per-
cent for Manitoba.

In Alberta crop districts 6, 8, 9, 11,
12, 16 and 17 have all received bet-
ter than average moisture during
this growing season, all other crop
districts somewhat less.

At this date crops in the three
provinces, particularly in Alberta
and Saskatchewan, promise a good
yield.

GENERAL CLEAN-UP

The filling station man had fin-
ished wiping the windshield. The
young mother who was driving the
automobile asked, "would you mind
going over Junior's face?"

BUMPER CROP OF DUCKS
AWAITS ALBERTA HUNTERS

A bumper crop of ducks and other
waterfowl can be expected by hunt-
ers this fall following reports of a
25 percent increase in duck popula-
tion.

Surveys indicate that water and
waterfowl conditions have been ex-
cellent this year. Heavy spring and
summer rains provided ample

breeding grounds throughout the
province and a steady rainfall dur-
ing June eliminated any threat of
drought on the prairies.

The ideal breeding conditions have
brought larger broods and there has
been little hatching loss. Average
broods for pintail ducks in southern
Alberta have been 7.7 ducklings;
mallards eight, and Canada Goose
broods averaged a little more than
four goslings.

BERGEN NOTES

Ronnie Lyle, third son of Mr. and Mrs. Eric Lyle of Bergen, is recovering in the Rocky Mountain House hospital following a fall from a hay-rack with a grizzly bear near the Ranger Station, 60 miles southwest of Rocky. According to press and radio reports it is not known whether Ronnie was in the tree repairing a telephone wire or if the bear chased him up the tree, but his feet and legs were badly clawed. He was weak from fatigue and loss of blood and he fell from the tree breaking some ribs and injuring his back. He was found by another ranger, who sent for a plane to evacuate him to hospital.

The government plane from Edmonton could not make a landing so Mel Cipperty of Olds flew out and was successful in landing but experienced some difficulty in the takeoff. However the runway was lengthened and a takeoff was made.

Ronnie is a veteran of World War II and entered the forestry service following his discharge from the army.

On hearing the news Mr. and Mrs. Lyle left immediately for Rocky Mountain House.

Ronnie's sister, Mrs. Harvey Henkle of Tilley, her husband and son are at present visiting with her parents.

Considerable oil well equipment was trucked as far as Bergen last week and was unloaded at the Bergen bridge. Some of the equipment weighed as much as 53 tons and the bridge is good for only about 15 tons. The equipment will have to be winched across the river or a ford made. The highway traffic police followed close behind the trucks to see that the bridge was not crossed. It was interesting to note that interested highway traffic board were in the local bridge.

The Bergen United Missionary Church Sunday School won the attendance record for the percentage increase in attendance during the past year of any Sunday School in Didsbury conference. Pastor of the local church, Rev. Willard Swalm, received his ordination July 18 at the annual conference of the United Missionary Church.

The young people of the church enjoyed an inspirational service Sunday evening, August 10 and more interesting programs are planned.
